

Electrical Box Mounting Strap

TEBS1624

Features

- Can be used as a height gauge for box center lines of 12", 15" or 18"
- Pre-punched holes provide easy screw insertion
- Keyholes allow simple pre-mounting and installation of screws
- Works with stud spacing up to 25"
- Replaces multiple SKUs compared to competitor products
- Marked centerline for 16" and 24" stud spacing
- Ideal for use with TEB23 and CER4 for box mounting
- Works with TSRBS1625 as a floor mounted box support
- cULus® Listed

The TEBS1624 Electrical Box Mounting Strap, part of the CADDY® line of fasteners from ERICO®, provides a quick and easy method for securing cable supports and boxes. The strap is cULus® Listed and features convenient pre-marked measurements and keyholes to simplify each installation. It can also be used as a height gauge for box center lines of 12", 15" or 18".

The TEBS1624 can be used with stud spacing up to 25" and features a marked centerline for 16" and 24" spacing. It can be paired with the TEB23 box mount and the CER4 cable support for a secure and code-compliant installation.

The TEBS1624 combines multiple parts into one convenient and easy-to-use product.

WARNING

ERICO products shall be installed and used only as indicated in ERICO's product instruction sheets and training materials. Instruction sheets are available at www.erico.com and from your ERICO customer service representative. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
