# Rail contact insertion tools

HSKE

ASKE

## The facts

The SK 19/... and DSK 19/... rail contact systems provide optimum connectivity for electrical cables in the DB AG and local transport regions.

For inserting the single and double contacts, ERICO offers two different high-quality, high-reliability assembly tools.

1. HSKE rail contact insertion tool  
Hydraulic head with manually-operated hydraulic pump
2. ASKE rail contact insertion tool  
Hydraulic head with battery-operated hydraulic pump

## The data

	HSKE	ASKE
	<b>Part No. 715345</b>	<b>Part No. 715350</b>
Weight Kit	6,6 kg	8,6 kg
Pulling capacity	57 kN	57 kN
Operating pressure	630 bar	630 bar
Kit includes	Tool, Steel carrying case, Check gauge, Countersink tool, 2 Tension bolts	Tool, Steel carrying case, Check gauge, Countersink tool, 2 Tension bolts, 12 volt RA 1 battery, LG 1 battery charger
Miscellaneous		After 10 000 insertions a built-in LED display indicates that the tool is due for overhaul. The number of operations can be set by the customer.
