CADDY® TPC TUBE AND PIPE CLAMP

CADDY® TPC

- Quick positioning of pipe and tube
- Clamps any pipe, tube, conduit or wire from 3/8” OD through 2-3/8” OD
- Strong, UV resistant Nylon 66 works as an insulator
- Releasable locking mechanism
- Perfect for jobs where many different pipe and tube sizes are used
- Permits horizontal and vertical positioning of pipe/tube

Install the TPC onto the CADDY TSGB for an adjustable pipe bracket and clamping system!

1. Break the TSGB and assemble
2. Position bracket and mark pipe locations
3. Screw the TPC base on to the TSGB where marked in Step 2
4. Install the TSGB to wall studs
5. Secure the pipe by attaching TPC retainer
The patented design of the TPC clamp, when used with the CADDY TSGB bracket, offers a unique, time-saving solution for tube/pipe positioning. ERICO has teamed up with Sioux Chief to provide this new solution.

**Features:**

- Wide temperature range: -10°F through +130°F
- Pilot holes in bracket permit easy attachment with screwdriver
- Innovative clamp design permits horizontal and vertical positioning of pipe/tube
- Strong, UV resistant Nylon 66 reduces vibration and noise and works as an insulator
- Clamp can be used for indoor and outdoor applications
- Clamps any pipe, tube, conduit or wire from 3/8” through 2-3/8” OD
- Releasable locking mechanism

The adjustable TSGB fits typical or variable stud spacing.
