

nVent LENTON Form Saver and Other Reinforcing Bar Assemblies – FS8MULES

nVent LENTON taper-threaded reinforcing steel bar (rebar) and assemblies (including nVent LENTON Form Saver assemblies), are available through nVent or one of our Remote Manufacturing Centers (RMC). The ability to order threaded bar and assemblies simplifies ordering for customers who lack threading equipment. The most common assembly configurations are defined below. When ordering, please include the reinforcing steel specification, grade and desired length(s).

- Standard configurations simplify ordering
- All parts are made to customer specifications
- Localized Remote Manufacturing Centers (RMC) reduce lead time
- Available in multiple reinforcing steel specifications, grades and coatings

Part Number	FS8MULES
Performance	nVent LENTON Standard
Rebar Assembly Type	M-M
Material	Steel
Finish	Epoxy Coated
Rebar Size, Metric	25 mm
Rebar Size, US	#8
Rebar Size, Canada	25M
Reinforcing Steel Overall Length	≥ 5'
Standard Packaging Quantity	1 pc
UPC	78285689704

When ordering, specify the desired length(s).

Reinforcing Steel Overall Length is the total length of reinforcing steel including Length 1 and Length 2.

Assemblies with a Reinforcing Steel Overall Length greater than or equal to 5 feet (1.52 m) will be charged an additional handling fee.

See nVent LENTON Form Saver Map for a Remote Manufacturing Center (RMC) near you.

Sizes, configurations, finishes and coupler combinations not shown may be available by special order. Contact your nVent LENTON representative for more information.

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.erico.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
